

DEPARTMENT OF ROG NIDAN (PATHOLOGY)

Introduction

Rog Nidanevam Vikriti Vigyana is an essential part of Ayurveda that is useful in early diagnosis of disease and deals with classification of diseases and techniques of diagnosis. Rog Nidanevam Vikriti Vigyana deals with the factors which are important to understand the origin of disease as well as pathogenesis, diagnosis and investigations of the disease. It also deals with aetio-pathological and clinic-pathological studies of disease. The normal state of mind and body is Prakriti i.e Health and abnormal state of of body is called Vikriti.e Disease. Rog Nidan also helps to understand Dosha-Dushya& Mala kashya-vridhilakshan and Dosha-Dushya Sammurchana.

Rognidan-Vikrutivigyan is the foundation of all the clinical subjects. The subject helps you to understand in depth the disease (Vyadhi-vidnyanam) & its pathogenesis (SampraptiVidnyanam), the art & science of the clinical examination methods (Aatur or RugnaParikshan Vidhi); the signs & symptoms or clinical features of the disease, the required investigations (Vyadhiparikshavidhi) & the interpretation of their results as well.
